Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2 and 7 are rejected under 35 U.S.C. 102(e) as being anticipated by Duffield et al U.S. Patent Number 6,310,857.

Re Claims 1 and 7, fig. 1 teaches an interface for providing uncompressed video (a first digital data stream in) at a video source rate (a first sample rate); inputting the video to an Encoder (SRC: sample rate conversion means); (See col. 7, lines 25-35) supplying the output from the Encoder to an Buffer (processing element); outputting the video (a second digital data stream out) from the buffer at an allocated rate (a second sample rate) wherein the first and second are different from each other in response to the adaptive rate buffer; wherein encoding rate is modified in accordance with the buffer fill amount (detecting a buffer state...and controlling the SRC) (See col. 8, lines 1-8).

Re Claim 2, refer to Claim 1, wherein the buffer fill amount is the amount of data current stored in the buffer (processing element).

Allowable Subject Matter

3. Claims 3-6 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

In combination with claims 1 and 6, prior art fails to teach the reducing and/or increasing a number of data samples contained in the data output by the SRC and supplied to the processing means is randomized in time within the data stream such that a position within a group where a sample is to be removed and /or to be added is randomly selected.

Claim Objections

4. Claim 2 is objected to because of the following informalities: spelling mistake, (BUUFER) should be (BUFFER). Appropriate correction is required.

Response to Arguments

5. Applicant's arguments with respect to claims 1, 2, 7 have been considered but are moot in view of the new ground(s) of rejection.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Lee whose telephone number is 571-272-3130. The examiner can normally be reached on Monday to Friday from 8:30AM to 6:00PM.
